

Amazing 400 Watts!

POINT & SHOOT

Photon-UV™ - *Rapid* Point & Shoot Handheld Sanitizer

Our new portable **Photon-UV™** rapid spotlight sanitizer is our most practical and effective “spot” sanitizer that is capable of sanitizing both large and small areas as well as other equipment and surfaces.

The **Photon-UV™** can be used as a quick treatment in combination with other cleaning methods to further reduce cross transmission of microbes. Due to the ultra-high wattage and extreme concentration of UV-C light this advanced “photon ray gun” is ideal for numerous applications.

- Portable UV light safely reduces HAI's and infection risk by killing viruses and bacteria in seconds without the need for chemicals. It also destroys mold.
- High intensity with wide beam spread enables reduction of bacteria and viruses over a surface area of 20" x 20" at a distance of 20".
- Light weight, hour meter & fan cooled.

Optional accessories include:

- UVC Protective Facemask
- UVC Protective Gloves
- Photon-UV Carrying Case
- Barn Door Photon Flaps
