

QUAD-UV™ Commercial 4-Sided Air Sanitizer

Ceiling Mounted or Hang

The Quad-UV is the most advanced yet affordable commercial grade, remote control, UVC unit for disinfecting AIR in hospitals, clinics, offices, malls, and more. Because the UV bulb is inside of the unit, rooms can be safely occupied when the unit is ON.

only \$1,295

Specifications

Model	Power (W)	Input voltage (V)	Wave length (nm)	Radiation Intensity (1m from the tube surface) ($\mu\text{W}/\text{cm}^2$)	Noise, 1 meter distance (DB)	Tube type	Working temperature ($^{\circ}\text{C}$)	Product size (mm)	Remote control range (m)	Infrared sensing range (m)
Quad-UV	150W	100-270V	253.7nm	100 $\mu\text{W}/\text{cm}^2$	1level: 30DB	2G11	5-40 $^{\circ}\text{C}$	595*595*168mm	$\geq 3\text{m}$	$\geq 2\text{m}$
					2level: 40DB					
					3level: 50DB					

Purification principle

Four sides of the upper room radiation light design: improve the purification range and efficiency, four sides of the light belongs to the upper room radiation layer, only in the installed 2.1m high position UV-C ultraviolet radiation, In this way, man-machine coexistence is achieved, so that the upper space is purified while commercial activities continue below.

12 Years of Sales & Service

Features

01 UV-C safety protection

Features 1: Built-in PIR module on four sides, the organism exceeds the ultraviolet radiation area, UV-C lamp will stop working, avoid UV-C exposure to hurt people, improve safety performance.

02 Air circulation system

Features 2: Four sides fan outlet design: can quickly form air convection through the fan, accelerate the indoor air circulation, increase the killing rate per unit time.

UV-C optical outlet

03 Environmental health

Features 3: Environmental protection - shortwave UV radiation peak at 253.7nm, no ozone emissions during or after use.

Effective bands for killing bacteria

The results of microbiological laboratory tests showed that microorganisms irradiated with more than a certain dose of UV-C can kill more than 99.9% of them.

Features

04 LCD display, remote control

Features 4: LCD screen display, show the current working state, infrared remote control to adjust the function, more convenient to use.

Note: the power prompt is displayed in red, and other prompts are displayed in white.

05 Easy to replace UV-C tube

Features 5: open type design, available tools to open the grid to replace the UV-C tube.

Application

It can be ceiling mounted or pendant, widely used in offices, medical clinics, retail, food stores, hotels, schools, banks, toilets and other public places.
