CEO-UV™

ADVANCED DESKTOP OFFICE, CUBICLE AND CONFERENCE ROOM SANITIZER

Our new advanced and very portable **CEO-UV** is designed to rapidly sanitize spaces 20' x 20'. For larger spaces, multiple units can be employed, or a single unit can be moved to multiple areas.

Our **CEO-UV** provides 360° coverage, is remote controlled and even has both a PIR and microwave type of motion detector shut-off should anyone accidentally intrude into space that is being treated.

The **CEO-UV** is rugged and robust and has many of the features of a much more expensive units. Moreover, our CEO-UV comes with sample verification labels.

The **CEO-UV** is ideal from sanitizing offices, conference rooms, cubicles, small hotel rooms, medical examination rooms, dental operatories, waiting rooms, clinics, and much more.
