SCAN-UV™

Cordless Surface Sanitizer

RECHARGEABLE

Rapid

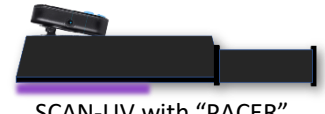

The most powerful, rapid, lightweight, easy-grip UV-C Handheld Sanitizer for travel, home, auto & office!

Our unique Scan-UV rapidly destroys 99% of all pathogenic bacteria and viruses present in homes, cars, offices and hotels.

PACER

SCAN-UV™

SCAN-UV with "PACER"

"The Most Powerful Cordless Handheld UV "SPOT" Sanitizer

Rapid UV-C Light Disinfection for Travel, Home, Auto and Office!

The need to disinfect both hard and soft surfaces and endless hygiene objects that can harbor a host of infectious and contagious bacteria, viruses and fungus is vital for many people wishing to be safe. This unit is ideal for home, office, vehicles and taking with you on vacations

Microbes on toilet seats, car seats, sinks, faucets, light switches, kitchen counters, hotel remotes, door knobs are just a small part of the of the dangerous contagions that are spread throughout our environment.

More dangerous are multi-drug-resistant MRSA, CRE, C. diff, measles and so much more. Our Scan-UV™ augments standard cleaning by emitting UV-C light at 254nm and effectively

destroying 99.9% of all microbes on surfaces, seats, computers and numerous other objects.

The Scan-UV™ is so easy to operate. Simply *pass over the surfaces* of those objects you feel needs sanitizing and in seconds you are done and *clean to go!!* One-year warranty.

Scan-UV™ is cordless, rechargeable and fast. Hundreds of spot disinfections on a single charge! 11"x 3" x 2" Rugged design. **Only \$395.**
