

Skylight-UV™

Auto-Ascending Environmental Room Sanitizer

The **Skylight-UV** is an advanced yet very affordable environmental room sanitizer that is remote controlled and features a 360° PIR Motion Sensor shut-off system for added safety.

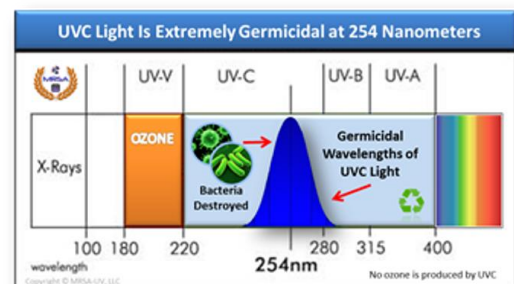

This is the ideal room sanitizer with enough power to sanitize small and larger spaces (with multiple units) quickly and easily and it takes up little space when stored away due to its very slim profile.

Skylight-UV includes accessories below.

SKYLIGHT-UV Features:

- Remote Control – with time settings
- 360° Motion Detector shut-off system
- Slim design for facilities with little storage space
- Easy-roll wheels for smooth rolling
- Elec. 120V, 200W, 50-60Hz
- Wavelength: UV-C, 254nm, no ozone
- Dimensions: 32" H x 10" x 10"
- Effective Range" 20' x 20' in 30 minutes
- 60 Second Delay Start
- Bulbs are effective to 8,000 hours
- Automatically ascends and retracts into base.

*UVC sanitizing should only be used as an adjunct to your standard cleaning/disinfection program.
