Turbo-UV™

Portable UV Room Sanitizer

Perfect for Smaller Rooms, Restrooms & Ambulances

Turbo-UV™ is the smallest yet most powerful commercial grade UVC **room sanitizer** on the market. Due to its size it is ideal for sanitizing ambulances, bathrooms, lockers, garages, restroom stalls, kitchens, small offices, cabins, kennels, cages, store rooms, waiting rooms, examining rooms, showers, smaller hotel rooms, play rooms, dressing rooms, basements, attics, closets, dental offices, laboratories, garbage areas, school buses, vans, trucks, RV trailers, campers and much more! **Turbo-UV™** is light weight but packs a heavy germicidal punch killing bacteria, virus and mold.

Turbo-UV™ is capable of safely disinfecting room environments using UVC energy in as little as a few minutes. UVC has been long proven in independent laboratory testing to successfully sanitize spaces and air. **Data reveals that only 50% of patient room environs are manually disinfected at terminal cleaning.**

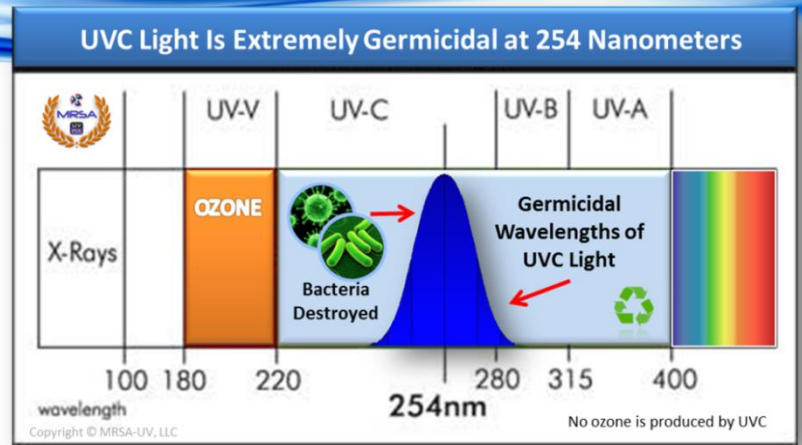

Turbo-UV™ is also fully remote controlled for added ease and safety.
